

RESTORE FUNCTION WITH

Tenex Health TX™

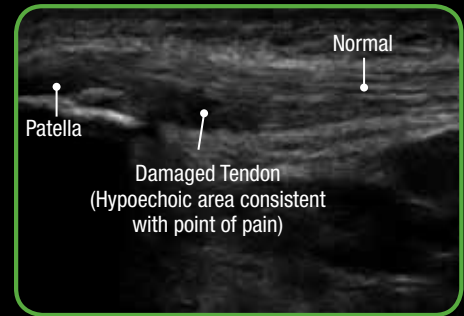

A Minimally Invasive Pain Management Solution

Tenex Health TX™ System:

- An image-guided procedure to treat tendonosis-related joint pain
- A treatment designed to precisely identify, cut and remove diseased soft tissue
- Performed with local anesthetic in 20 minutes or less
- No additional post-procedure treatment required
- Technology developed in collaboration with the Mayo Clinic
- Compelling clinical results¹

TX MicroTip™ Handpiece with optimized ultrasonic energy simultaneously cuts and removes diseased tissue.

Ultrasound guidance is used to identify pathologic tissue and guide the TX MicroTip™ during tissue extraction.

- More than 10 million patients seek treatment for tendon pain each year
- More than 80% effective in all treatment areas¹
- More than 15,000 procedures with Tenex Health TX since 2012
- Treatment areas: Elbow, Knee, Ankle and Foot
