Leading the way in patient and staff safety.

Founded in 1947, the Brewer Company began as a custom tube fabricator constructing truck and train seat frames and dinette sets. In the 1960s, fueled by the success found in the seating industry, we developed a comprehensive line of medical exam seating that was the beginning of our current product lines. Today, Brewer leads the industry in innovation through our comprehensive line of power procedure and exam tables, patient lift, stationary tables, ergonomic seating, and other medical products.

Brewer innovations add up to better bottom-line values. We understand that today's new healthcare reality presents a host of challenges to your clinical, financial and operational success. That's why we work closely with medical professionals to develop the advancements that matter, allowing our customers to:

- **Enhance patient and staff safety** - Set a new standard in ADA-compliant safe patient handling and protect your caregivers' backs and your bottom line from workers compensation claims.
- **Preserve patient dignity and enhance patient satisfaction** - Instill elderly, disabled and bariatric patients with a sense of independence they won't experience with other solutions.
- **Keep pace with changing patient population requirements** - Accommodate a wider range of patients with advancements that include the first power exam table to offer a 700 lb. patient weight capacity.
- **Lower total cost of ownership and increase ROI** - Industry-leading warranties and more standard features mean more value, while allowing you to optimize clinical efficiency and flexibility in compact exam rooms.

Brewer delivers the Power to Advance. Safely. Financially. Competitively.

The Power to Advance

LiftMate™

Brewer Low/High Patient Lift

- Helps prevent patient falls by smoothly maneuvering patients onto and off of surfaces found in exam, treatment, radiology and imaging rooms
- Improves clinical staff safety by reducing manual lifts of patients
- Removes patient mobility barriers
- Mobile, battery-powered and easy to use

BrewerAccess High-Low EXAM TABLE

- True chair-to-table design easily and safely takes patients from consultation to examination
- 18" profile in seated position allows level transfer from standard wheelchair heights, complete with upright seat back and safety grab bars to support reliable transfers
- Access High-Low Exam Table 700 is the first power exam table in the industry to offer a 700 lb. weight capacity, standard
- Offers unmatched storage capacity and signature pass-through drawers and work surface
- Three year warranty standard

BrewerAssist POWER PROCEDURE TABLE

- One table accommodates multiple procedure positions, including supine, left lateral plane, lithotomy, and proctology
- Lowers to 19" for easy wheelchair transfers
- Intuitive foot controls
- Exclusive, easy-to-adjust, three-point pivot headrest
- 450 lb. weight capacity and 5" leg extension accommodates a variety of patients more comfortably for safer clinical outcomes
- Three year warranty standard
